RECYCLING INCOME

Winchester residents have helped to raise £24,000 for the Hampshire and Isle of Wight Air Ambulance by using the Council's clothing recycling banks around the district to turn unwanted clothing, shoes and textiles into cash.

The Air Ambulance provides care to those who need the highest level of urgent medical treatment, wherever they are. The service relies on charitable donations to keep the ambulance available to all who need it.

Cllr Jan Warwick said, "Residents have been filling our blue textile banks with unwanted clothing, textiles and shoes. This is helping to reduce waste, improve our recycling performance and also supporting worthwhile causes."

MOVEMENT STRATEGY FOR WINCHESTER

The Movement Strategy is an initiative by both the County and City Councils looking at all forms of transport in and around the City.

"The public consultation received many responses and raised some important issues. There has been some impressive work by our transport officers," said Cllr Jan Warwick.

People were asked their views on travelling in and around the City. The strategy aims to address travel and transport constraints, to support Winchester's growth, and allow the City to become a healthier and more accessible place.

Both councils will publish further information on the strategy and the next steps in the process, in the coming weeks.

CATTLE ON WHITESHUTE RIDGE

Local councillors were very pleased to see the safe arrival of the British White cattle onto Whiteshute Ridge.

Cllr Jan Warwick, Winchester City Council's Portfolio Holder for the Environment, said, "I would like to thank officers from the City Council, the Hampshire & Isle of Wight Wildlife Trust and Badger Farm Parish Council, for supporting this project and facilitating the safe arrival of the cattle."

Local resident and Parish Councillor, John Godbold, who walks regularly on the Ridge added, "The majority of residents are very pleased, as the cattle are docile and friendly to both dogs and walkers. The ground is already showing signs of being broken up and this will improve both drainage and soil quality. We will continue to work with the City Council on improvements suggested by some residents, such as a log wall to provide shelter for the cattle from easterly winds and the kissing gate latches which can be tricky for some of our older residents to open."

BIOMASS RETROSPECTIVE PLANNING APPLICATION

Hampshire County Council's Regulatory Committee will hear the Four Dells Biomass retrospective planning application in February.

Biomass energy contributes to the UK's renewable energy sources, however sites must be well managed to reduce any adverse impact on nearby residents and businesses. Officers from Winchester City Council have investigated noise complaints and a noise abatement order was served in January.

Cllr Jan Warwick stated, "Residents have responded to the public consultation on this application and I will ensure important factors such as noise, light and smoke pollution will be taken into account by the committee."

COUNTY COUNCILLOR GRANT

Cllr Jan Warwick has been pleased to support local groups and charities through her Hampshire County Councillor grant money. Her support ranged from toys and games for the Badger Farm Baby and Tots group, the Oliver's Battery Christmas lunch for older residents and the homeless and equipment for Hursley Youth Football Club to the Citizens Advice Bureau digital advice project, fresh produce for the Winchester Basics Bank and the annual trip for older people run by the Winchester Live at Home Scheme.
